Summary — Information Technology Engineering student with hands on experience through academic projects.Strong problem solving abilities,with a continuous drive to learn new technology.

Experience

Machine Learning Internship

Sep 2024 – Oct 2024

Unified Mentor

- Gained hands-on experience in core machine learning concepts and algorithms.
- Worked on real-world datasets to develop predictive models using Python and libraries like NumPy, pandas, and scikit-learn.

Projects

Online Polling System

- Developed an online polling system that allows users to create and participate in polls or surveys via the internet.
- Implemented features for real-time voting, result tracking, and data security.

Laptop Price Prediction

- Predicted the price of a laptop based on various features using machine learning algorithms.
- Helps users estimate laptop costs and guides retailers for pricing strategies.

Skills

Languages : Java, Python

Web Technologies : HTML, CSS, Spring Boot

Databases : MySQL

Core Concept : OOP, DBMS, DSA

Tools & Platforms : VS Code, Eclipse, PowerBI

Other Skills: Java 8 Features,PowerBI

Education

B.E. (Information Technology Engineering)

2022–2026

Vidya Pratishthan's Kamalnayan Bajaj Institute Of Engineering and Technology, Baramati, Pune

SGPA: 7.83

Higher Secondary (HSC) – Percentage: 87.17%

2022

Dattakala International School and Jr College,swami chincholi,Bhigwan,Daund

Secondary (SSC) – Percentage: 90.60%

2020

Vidya Pratishthan's New English Medium School,Baramati,Pune

Certifications & Achievements

- Completed Capgemini Java Full Stack Development Training
- Infosys Springboard : Python Foundation Certification
- Infosys Springboard : Java Foundation Certification
- NPTEL Certification: Database Management System
- TCS iON: Introduction to Soft Skills
- Smart India Hackathon 2024 – Participant
- PowerBI Workshop - Google Developer Groups(3rd Rank)
